

(B) Includes a ceiling price in the contract or order that the contractor exceeds at its own risk; and

(C) Prior to increasing the ceiling price of a time-and-materials or labor-hour contract or order, shall—

(1) Conduct an analysis of pricing and other relevant factors to determine if the action is in the best interest of the Government;

(2) Document the decision in the contract or order file; and

(3) When making a change that modifies the general scope of—

(i) A contract, follow the procedures at 6.303;

(ii) An order issued under the Federal Supply Schedules, follow the procedures at 8.405-6; or

(iii) An order issued under multiple award task and delivery order contracts, follow the procedures at 16.505(b)(2).

(2) Each D&F required by paragraph (b)(1)(ii)(A) of this section shall contain sufficient facts and rationale to justify that no other contract type authorized by this subpart is suitable. At a minimum, the D&F shall—

(i) Include a description of the market research conducted (see 10.002(e));

(ii) Establish that it is not possible at the time of placing the contract or order to accurately estimate the extent or duration of the work or to anticipate costs with any reasonable degree of confidence;

(iii) Establish that the requirement has been structured to maximize the use of firm-fixed-price or fixed-price with economic price adjustment contracts (*e.g.*, by limiting the value or length of the time-and-material/labor-hour contract or order; establishing fixed prices for portions of the requirement) on future acquisitions for the same or similar requirements; and

(iv) Describe actions planned to maximize the use of firm-fixed-price or fixed-price with economic price adjustment contracts on future acquisitions for the same requirements.

(3) See 16.601(d)(1) for additional approval required for contracts expected to extend beyond three years.

(4) See 8.404(h) for the requirement for determination and findings when using Federal Supply Schedules.

(c)(1) Indefinite-delivery contracts (see Subpart 16.5) may be used when—

(i) The prices are established based on a firm-fixed-price or fixed-price with economic price adjustment; or

(ii) Rates are established for commercial services acquired on a time-and-materials or labor-hour basis.

(2) When an indefinite-delivery contract is awarded with services priced on a time-and-materials or labor-hour basis, contracting officers shall, to the maximum extent practicable, also structure the contract to allow issuance of orders on a firm-fixed-price or fixed-price with economic price adjustment basis. For such contracts, the contracting officer shall execute the D&F required by paragraph (b)(2) of this section, for each order placed on a time-and-materials or labor-hour basis. Placement of orders shall be in accordance with Subpart 8.4 or 16.5, as applicable.

(3) If an indefinite-delivery contract only allows for the issuance of orders on a time-and-materials or labor-hour basis, the D&F required by paragraph (b)(2) of this section shall be executed to support the basic contract and shall also explain why providing for an alternative firm-fixed-price or fixed-price with economic price adjustment pricing structure is not practicable. The D&F for this contract shall be approved one level above the contracting officer. Placement of orders shall be in accordance with Subpart 16.5.

(d) The contract types authorized by this subpart may be used in conjunction with an award fee and performance or delivery incentives when the award fee or incentive is based solely on factors other than cost (see 16.202-1 and 16.203-1).

(e) Use of any contract type other than those authorized by this subpart to acquire commercial items is prohibited.

[71 FR 74676, Dec. 12, 2006, as amended at 72 FR 6882, Feb. 13, 2007; 76 FR 68034, Nov. 2, 2011; 77 FR 197, Jan. 3, 2012; 78 FR 13767, Feb. 28, 2013]

12.208 Contract quality assurance.

Contracts for commercial items shall rely on contractors' existing quality assurance systems as a substitute for

Government inspection and testing before tender for acceptance unless customary market practices for the commercial item being acquired include in-process inspection. Any in-process inspection by the Government shall be conducted in a manner consistent with commercial practice.

12.209 Determination of price reasonableness.

While the contracting officer must establish price reasonableness in accordance with 13.106-3, 14.408-2, or subpart 15.4, as applicable, the contracting officer should be aware of customary commercial terms and conditions when pricing commercial items. Commercial item prices are affected by factors that include, but are not limited to, speed of delivery, length and extent of warranty, limitations of seller's liability, quantities ordered, length of the performance period, and specific performance requirements. The contracting officer must ensure that contract terms, conditions, and prices are commensurate with the Government's need.

[66 FR 53484, Oct. 22, 2001]

12.210 Contract financing.

Customary market practice for some commercial items may include buyer contract financing. The contracting officer may offer Government financing in accordance with the policies and procedures in part 32.

12.211 Technical data.

Except as provided by agency-specific statutes, the Government shall acquire only the technical data and the rights in that data customarily provided to the public with a commercial item or process. The contracting officer shall presume that data delivered under a contract for commercial items was developed exclusively at private expense. When a contract for commercial items requires the delivery of technical data, the contracting officer shall include appropriate provisions and clauses delineating the rights in the technical data in addenda to the solicitation and contract (see part 27 or agency FAR supplements).

12.212 Computer software.

(a) Commercial computer software or commercial computer software documentation shall be acquired under licenses customarily provided to the public to the extent such licenses are consistent with Federal law and otherwise satisfy the Government's needs. Generally, offerors and contractors shall not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except as mutually agreed to by the parties.

(b) With regard to commercial computer software and commercial computer software documentation, the Government shall have only those rights specified in the license contained in any addendum to the contract. For additional guidance regarding the use and negotiation of license agreements for commercial computer software, see 27.405-3.

[60 FR 48241, Sept. 18, 1995, as amended at 72 FR 63049, Nov. 7, 2007]

12.213 Other commercial practices.

It is a common practice in the commercial marketplace for both the buyer and seller to propose terms and conditions written from their particular perspectives. The terms and conditions prescribed in this part seek to balance the interests of both the buyer and seller. These terms and conditions are generally appropriate for use in a wide range of acquisitions. However, market research may indicate other commercial practices that are appropriate for the acquisition of the particular item. These practices should be considered for incorporation into the solicitation and contract if the contracting officer determines them appropriate in concluding a business arrangement satisfactory to both parties and not otherwise precluded by law or Executive order.
